EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian E. Urica on January 10, 2005.

The application has been amended as follows:

Claim 1, line 23: after the term "said information" please add ---sent from a sender device---.

Claim 1, line 60: after the term "said information", please add ---sent from a sender device---.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claimed invention provides a system to convert input into a different software language whereby the received data is converted into numerous languages and based on the occurrence of non-frequently used words, selects the best conversion method. The flow chart found at Figure 3 provides a graphical representation of this algorithm which is used to convert into a type of internal code of the recipient device. These, in conjunction with the other limitations of the independent claims, place this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
3. Fukushige et al. (USPN 6,622,122) discloses document retrieving apparatus.
4. Tang et al. (US 2002/0075300) discloses network based input system and method.
